

Bailey Jones

October 1, 2010 - June 10, 2019

Bailey Tumnus "Bean, Mister baby, Bailey Button" Jones, 8, passed away on June 10, 2019. He was born in Martinsville, IN on October 1, 2010 to his pet parents, Krystynn and Tyler.

He loved many things like his favorite toy, Lamb Chop, playing, eating, and taking naps espcailly in his mom's arms. He however did not like getting a bath and being blow dried.

Bailey is survived by his pet parents, and siblings Chico and Molly. Also surviving is his best friends, Googie and Zoey; aunt, Kaylynn, and cousin, Griffin.

He was preceded in death by his sibling, Baby.

"Bailey was more than just a dog, he was family and a part of me will never be the same. He was the sweetest angel this world has ever known. His favorite pass times were cuddling up for a good nap, eating treats, and getting a few squeaks in on his favorite toy lamp chop. Bailey had a way of making even the worst od days brighter. He was my tiny little ray of sunshine. I am so blessed he was mine for the past 8 1/2 years and I know God hand picked him just for me. Even though we couldn't talk, we always knew what the other was thinking. He was the greatest part of my life and anyone who had the chance of knowing him was blessed as well. He didn't know a stranger and was the spunkiest little boy I've ever known. He loved his best buddies Zoey, Googie, and every single family member he had. Baily had a way of letting us all know how special we were to him. Even though he loved to rough the cats up, I know he loved them in his own special way. Our house is a little quieter now without the sounds of his little feet on the floor or his high pitched bark bossing you around. Losing him leaves me with a void that will never be filled. He is going to be missed every day for the rest of life." -Mom

Comments

“ baileys cousin says the most favorite memories with bailey was how loving he was always coming straight to him when he came in the door and showered him with kisses. For myself there were so many I will miss his lovings, seeing him walking around with one ear up and one ear down and seeing how much my sister loved that boy. It hurts knowing that he won't be there to steal all the toys and treats and seeing my sisters whole being light up the second she walked in the door to him. He was a great boy and an awesome nephew. I'm so sad we didn't get more time with him but at least we had an amazing 8 1/2 years with his sweet soul! His little paw prints will forever be in my heart!

“ Bailey was always hungry. Whether it be for food, playing with his toys or yipping to go outside. He was very sweet and will be missed. His mom loved him more than anything. And so did his grandparents.

“ Bailey was a small guy but he lived large and had the biggest heart. He would never leave a friends side when he felt they needed him. From the time his little paws hit the floor he was on the go. I will forever love and miss him.
