

Zeke Stephens

April 26, 2018

Zeke was adopted by my father from the Warrick County Humane Society. He was one of a litter of pups they took from a breeder that they shut down. He had a brother who was blind. Zeke had the most amazing blue eyes. He caught my dad's heart immediately. After my Step-Mom passed away from cancer and my dad could no longer live alone, Zeke came to live with us. Our family includes my husband, Scott, our son's, Craig and Doug, Craig's girlfriend, Hope (who works at Binford Pet Wellness), my dad, Clifford, my mother-in-law, Mama and her dog, Sissy, his aunt Shelly and cousin Jessica and so many others.. Zeke had a personality like no other dog I have ever had. He could tell time and knew about 30 minutes before it was time to eat. He would growl and dance around until we got up to feed him. He gave us so much joy and enjoyed being with us. Whether we were going for a car ride or just sitting in the backyard. He also loved to go for boat rides with us. He didn't like it when we went fast but he like to lay there and watch us fish. He loved to go to Walgreens because they gave him treats. In fact, he loved any place with a drive thru.

This dog would eat anything!!! From headphones, to ink pens to ear pieces of glasses. It was crazy. His favorite foods were bananas, eggs, bacon and chicken. He loved when we had cookouts so he could get scraps of what people dropped.

He also loved when we had birthday parties and would sing (bark) his own rendition of the Happy Birthday song.

There was only one thing he didn't like and that was STORMS. He could tell when they were coming.

I will miss him forever. He was my faithful companion and I took him everywhere with me.

Please know how much his pawprint and the lockets of his hair mean to me. I will treasure them always.
