

## Amber Aurora Sarjeant

August 21, 2012 - November 8, 2024

Amber Aurora Sarjeant was born on August 21, 2012 in Kokomo Indiana and adopted a little over a year later. She was adopted as a gift and selected perfectly by her Aunt Shelley and grandma Betty. She passed away unexpectedly on November 8, 2024 from complications of lymphoma - and possibly a broken heart following the recent passing of her constant companion, Jake. She is survived by her pet mom Victoria Sarjeant and her favorite family members that helped care for her throughout her many years and helped cover medication duty, cat sitting, provided snuggles when she and her brother needed extra care support. She had excellent care teams at Noblesville Pet Wellness Clinic and VCA Advanced Veterinary Care and we will forever be grateful for the time they added to her life and the comfort and love they bestowed on her. Amber had a very strong extended support system as well through mom's co-workers, friends, and family.

Amber was the most lovable and kind cat to ever live. Some of her most treasured past times were sitting in the cat tree and sitting in mom's arms like a baby. She loved watching TV – sometimes Cat TV and many times intently watching action movies. She wasn't much for playing, but instead loved attention – which everyone was happy to give her. She was most skilled at giving high fives to the people she loved most. Amber loved her brother just as much as her mom. He sadly passed away just 3 months prior to her death and while she enjoyed extra love and attention after his passing, she waited

by the door every day for him to come home.

All of the best memories with Amby were her snuggles. She had an entire house to roam, but if a person was around, she was glued to them. Life is a little less bright for everyone that had the pleasure of knowing her. She broke the mold for the stereotypical tortoiseshell. She started early in life as a stubborn and aloof torti, but she transformed into the perfect cat in the last half of her life. She is an irreplaceable beauty. Amber, the girl who waited, is now reunited with her brother.
