

Angel Daniels

October 21, 2007 - January 16, 2018

Our dog, Angel, passed away on Jan. 16, 2018. We found her in an Anderson Indiana Animal Shelter, on Oct. 21, 2007. The shelter worker gave her to us for free because she had been there for months, no one wanting her. Two days earlier our dog Payton passed away, and we were grieving from Payton's death, and in helping Angel, Angel was helping us. They believed Angel to be one year old at the time. We believed her to be mixed Lab and Sheppard. She was white-golden in color. Angel was the love of our life. Later, five other stray doggie sisters and brothers came into Angel's life and Angel accepted and loved them all, however, Angel's love for my husband, her daddy, was very very special. Hence, Angel became daddy's favorite. When my husband would come home from being out of town, upon entering the door she would cry and howl with excitement, tail wagging swiftly, smiling ear to ear. She was very protective of her daddy, sometimes even barking at me to keep away. Angel loved to eat, never turning away a treat. She was a very happy and content dog.

March of 2017, Angel was diagnosed with Mast Cell Tumor, grade 3. She took it like a trooper. We had several operations to remove the cancer, but there comes a time when removal is no longer an option. We were blessed to have her in our life for 10 years, and we believe she is with departed fur sisters, Blackie Anne and Payton. Angel, no dog will ever take your place. You were and are the love of our life. One day we will be reunited, but until then remember you are always in our thoughts and heart. Our love for you is

forever consuming, and will never diminish. As we have said so many times,
"We love our Angel."
