

## Bailey Williams

December 2, 2014 - May 24, 2024

Bailey's Pride 12/2/14 – 5/24/24

Bailey was born 12/2/14 and crossed the Rainbow Bridge on 5/24/24. She unexpectedly lost her life due to a complication from her degenerative bone disease.

Bailey is survived by her pet parents, Ken & Beth Williams. She is also survived by her cat brother, Mr. Bentley. Bailey was obsessed with her ball and loved being outside. She was our Energizer Bunny. She would go 24/7 if we let her. Bailey was also a Diva!! After her bedtime potty break, she would go straight to her bed and don't even think about waking her up before 4a because she was not moving, trust me. As they say, "A Queen needs her beauty sleep." We didn't call her Queen, instead we called her Princess Bailey. And a Princess she was. A whiney Princess, but a Princess indeed. She has been whiney since the 1st day we brought her home but would always be comforted and quieted by simply touching her or holding her paw. Bailey loved her ball, but didn't like to share so playing ball made it difficult. You only could "play" when she wanted to drop her ball outside the gate. There really wasn't anything she wouldn't eat but she LOVED raw carrots.

It is hard to say goodbye and our hearts hurt but we are comforted by knowing that you are no longer in pain. Sleep well & rest easy our Pretty Princess. We

will miss your beautiful face. Go find your brother Bosco and play ball forever.

Mom & Dad love you forever and always.
