

Bear Cleary

December 26, 2021 - May 7, 2026

Bear was born December 26, 2021. We are told that dogs are angels here on earth, unfortunately the angels suddenly called Bear home on May 7, 2026.

Bear is survived by his human parents, John and Esther Cleary, whom he had been living with since December 30, 2022. When we first met Bear he came running straight to Esther and jumped into her arms then laid his head on her shoulder, and when he saw John he ran straight to him. We all knew that he would be coming home with us. From that moment on we gave him a life full of love that any pup could only dream of.

He had so many toys that it would be hard to pick out a favorite it just depended on what he was in the mood to play with on any given day.

He loved being outside sun, rain or snow. Even though he was on a lead, he still loved to chase the mail truck, FedEx, UPS, his most favorite chase was the school bus. Chasing the squirrels up and down the tree. Going for walks and rides.

His least favorite things were going to the groomer and to his doctor. But the thing he hated most was being left at home alone, you see someone was always at home with him.

His favorite place to sleep was on the cedar chest in the front bedroom where he could watch the world go by and made sure that all was safe and protected or in front of the patio door where he would watch the squirrels and birds.

Bear was a lover boy. He had beautiful eyes that just sparkled. He never missed a chance to give you a kiss. Getting up in the morning to have him jump in my lap so I could love on him while watching TV. John sharing M&M's with him in the evening before settling down for bed. Bear would want to make sure of where you were all the time. He was a social eater, loved anything that we would eat.

Thank you Bear, you gave us so much love and joy. You were our soul dog. We miss you terribly and know that you will be loved and treasured in our hearts forever.
