

Brenna Kincaid

May 1, 2008 - July 17, 2018

Brenna Kincaid was born in May, 2008 in a puppy mill in Kentucky, rescued and received from a rescue organization in Mishawaka by Aeron Kincaid on December 20, 2008. Brenna's nicknames "Bren", "Bree", "Brenna-boo", and "Bree-Bree".

Brenna is survived by her mom, Aeron and her older brother, Sir Barkley with whom she connected with and misses her severely. Also surviving are her grandparents, Sam and Kelly Kincaid and one of her very favorite people in the world, Deven Thompson (she did not like men, except for Deven).

Brenna's favorite "toys" were her brother, Sir Barkley and Snow!! Her favorite activities were bossing and herding her brother around, talking and being sassy - always had to have the last word. She also loved to get into the trash and cause mischief and bark at animals on tv. Her least favorite things were carrots and being told what to do.

Brenna loved to sleep in her mom's bed or curled up with her brother. She loved eating McDonald's french fries!!

Brenna was full of life, but scared when her mom first held her. She fought for herself, was fiercely loyal (like a true Scottie dog). The bond she had with her brother, her flunking her first round of training classes and her talking will be so very missed.!!
