Buddy Daniels 2006-2018

One frigid day in the first week of March 2008, the pet store owner came to me in my hometown and said this dog had jumped inside her car that morning (she lived out in the country) and would I take the dog, believing it to be a stray in need of a home. She left the dog with me and it slept along the wall in our workshop. The sweetest dog - treeing coon foxhound to ever live. We named him Buddy. We kept him and he became a part of our family. Very docile, quiet and loving, very low maintenance. Loved to just eat and sleep. The vet believed him to be 2 years old when we got him. EVERYBODY, I mean EVERYBODY loved Buddy Wuddy. When he wanted a treat, he would do this dance and throw his head on the floor, then lift it up and prance around like a show horse, then prance to the kitchen. He stole your heart. He loved to have his face massaged by my husband. All our other dogs LOVED him. They would lick his face with kisses (little licks). He will be missed by all his fur brothers and sisters. He had a slipped disc and after 5 weeks of back and forth trying numerous ways to relieve the pain, we decided for his sake, it was time he joined his three siblings, Payton, Blackie Anne and Angel in Heaven. This past Easter he passed over. We love you Buddy, you are so missed. One day we all will be together again. "Mommy loves her Buddy Wuddy". Daddy, Mommy, Jack, Billy Bob and Tinker will miss you EVERY day. We love you forever and one day we will all be together in Heaven. You were the best.
