Buster had some favorite toys that he played with like his skateboard and empty boxes you would say whatcha gonna do w/it and he would tear it up. Buster liked to chase squirrels, going for walks and snuggling with you under the blanketshe loved his blankets he always wanted to be warm my baby boy oh how he's missed.

Buster never liked thunderstorms or hearing people argue. He was such a good dog and loved everyone. He hated when you didn't get along.

Buster had his favorite place to sleep which was behind the chair with all his blankets and anywhere with you that he could cuddle and be under the blankets.

Buster loved his treats and food but mostly the bites you would share with him Hahaha which usually was at least three bites of mine.

There were so many memories of Buster, every moment i spent with him was special. He will Forever have a special place in my heart. He is so so so very much missed by his mommy.
