

Butters Rosas

November 8, 2025

Butters ("Butter") Rosas passed on November 8, 2025. He is survived by his pet parent, Ashley Rosas; human siblings: Nalena, Gabby, Victoria, and Anna; and pet siblings, Cinnamon and Muffin. Other family and friends are all of his outside cat friends; and friendly neighbor, Mike.

Butters' favorite toys were strings and sticks. His favorite activity was sunbathing. Butters was very vocal. He loved to be spoken to and petted. His favorite place to sleep was on top of the cat house or in boxes.

Butters came to us approximately 2 to 3 weeks ago as a stray. One of my favorite memories of him was to finally allow myself to pet him. He then jumped in my lap, made biscuits, and fell asleep. I sat in the cold for 3-4 hours to hold him and keep him warm. It became our nightly routine. You could tell he was really scared of people and that he hadn't been around people often.
