

## Charlie Puppets Boell

February 1, 2012 - January 9, 2018

Charlie rescued his parents in February of 2012. He was a little man with a lot of spunk and personality. Charlie was a well-traveled dog who loved to visit family and enjoyed road trips. He took great pride in working alongside his Daddy and held the title of Executive Assistant in charge of Cuteness. Charlie did important dog things such as protecting his parents from golf carts, garbage trucks, and UPS. He was always happy and the best cuddle buddy. Charlie loved finding abandoned tennis balls from the neighborhood tennis court and took great pride in his vast collection. Beyond tennis balls, Charlie also loved his Piggy, Froggy, and Snowball. He was a fantastic sous chef and inspired many turkey dinners with green beans.

While Charlie left us too soon, he taught us to enjoy the little things. He will be forever missed. We love you, buddy.

To our Puppets. Thank you for your unconditional love.

KI

“ We visited Charlie and his parents in their new house last summer. Charlie held his head high and pranced proudly about his new domain. While enjoying the backyard, Charlie laid his belly in the grass and kept a keen eye on the goings on of the neighborhood, though, always with one eye on the whereabouts of his parents. Charlie brought so much joy to his family who, I think they'll agree, are better people because he was a part their lives 😊
