

Cocoa Stephenson

December 11, 2012 - February 28, 2023

Cocoa Stephenson was born on December 11, 2012, and passed on February 28, 2023. She is survived by her pet parent, Duncan Stephenson; human siblings: Ciara, Allison, and Tegwin; pet siblings, Oakley and Lentil. Other family and friends are Kathyne and Michael.

Cocoa's favorite toys were her football with treats, plushie with squeaker (to dig out), and rope. Her favorite activities were being with family, car rides, and daily walks. Her least favorite thing was anything touching her paws. Her favorite place to sleep was Michael and Kathyne's bed.

Favorite memories of Cocoa:

- Affectionate headbutting,
- Watching her meet people with reservation but then once included in her pack how it was a lifetime membership even if she only saw them every couple of years,
- How she picked Duncan when he was trying SO hard to be the one doing the picking,
- Walking in the snow and watching her plow her head through all the deep places,
- Seeing her happy face every time she went on a car ride with Duncan,
- Watching how she could take a brand new tennis ball crunch down one time and pop it,

•How at the end of her life she was so strong. Even with extensive brain and lung cancer she, right up to the end, was the same loving loyal dog that she always was.
