

## Creed Sauer

May 6, 2025

We do not know when Creed was born, but he crossed the rainbow bridge May 6, 2025.

I found him as a stray collapsed in the middle of the road due to heat stroke almost 4 years ago. I brought him home, got him cooled off and went searching for his owner.

He had to have his eyes removed due to his eyes bursting out of his head from the pressure of the cataract and glaucoma! Both eyes were removed. I brought him home and he became my blind wingman.

We named him Creed (after Apollo Creed in Rocky) because we felt he kept getting knocked down, but getting back up again and again.

He went everywhere with me. To work, play, vacations, road trips, you name it, we were always together. He was on several beaches in Florida, on the side of a mountain in Georgia and in the river in West Virginia. We had code words we used for directions, and up and down. His forgiving nature was amazing, after all that had happened to him he was so trusting!

I loved that dog with every fiber of my body and the silence is deafening from this loss. He was with me almost 4 years, but it felt like he had been with me my whole life. I truly hope there is a rainbow bridge and he will be waiting for

me when I pass...
