

Dante Leonardo Korapatti

October 6, 2018

Dante was a true miracle dog! He ran away from his family in 2010, only to return in 2016 after being found on I-465. His family had just watched, "The Secret Life of Pets," the week before he returned and were thrilled to reunite. A chip allowed him to return to his family of origin. Please chip all beloved pets! Miracles do happen and you can teach a dog new tricks. At 13 years old, Dante not only still had some childhood tricks, but he was able to learn an invisible dog fence. He will be sorely missed by his parents Bala and Colleenia Korapatti. He had one human brother, (Ian) and two furry siblings (Rex and Bella.) Dante's grandparents, James and Mary Smith will be missing him as well. Dante enjoyed galloping and imitating his human brother, licking his paws all day, chewing water bottles, offering high fives to humans and shaking hands for treats. He always slept protecting his human brother and had a sweet personality that spoke to everyone he met.

“ *Aw I always loved Dante. When he was young he had such a bear face and long flowing fur on his ears. He knew me as the treat lady. He will be missed.*

gina ciesialka - October 31, 2018 at 03:47 PM

“ *Although I didn't know Dante that long, I'll never forget when I met him! I thought wow this dog is so smooth! His face is by far the cutest dog face I've ever seen;-) He was so soft and very compassionate! I'm sorry for your loss, we'll be think and praying for you guys. #alldogsgotoheaven*
