

Diesel Stone

January 26, 2016 - September 29, 2019

Diesel Stone went to Rainbow Bridge on September 29, 2019. He was born in Michigan, and came to live with his pet parents, Melissa Stone and Josh Rice, one year ago. His nicknames were Diese, Big Head and Biesel.

Some of Diesel's favorite activities included watching the cat, sleeping on his back as well as on the couch, swimming, and playing with his humans and little sister. His least favorite thing was cold weather!

Oh, how Diesel loved to get into the cat's food....but it just didn't love him! Besides food, cheese was his only treat.

Some of his pet parents' favorite memories about Diesel were going to the river, watching the kids play with him, seeing him sleep on the trampoline, and the many hours that his pet mom Melissa and he spent in the car together. Diesel's favorite place to sleep was usually on someone.

Survivors include his human siblings: Colleen, Emma, Daiton and Dawson. Other family and friends are Mimi and Opa, Chaz Peltier, Terry Fox, Bo Fox, Chuck Sutliff, favorite neighbors Jean and Rick, and all of the people in the little group called The Village. Diesel is survived by his older feline brother, Tom, and little sister, Dorie. Diesel's older pet brother, Kason, crossed the Rainbow Bridge on July 9, 2019.
