

Embers Fumabashi

May 28, 2021

My dog Embers passed away she had cancer. My dog Embers was the best animal I could ask for. I had post partum depression when my son was born and she always laid with me. She could always sense my pain. An extremely loyal dog. So sweet and kind. She was great to my son. Even in her last days she was still playing with us and excited for walks.
