

Fat Fur Fergie Hobbs

November 3, 1998 - June 24, 2013

Fat Fur Fergie Hobbs was the beloved chow/lab mix of Debra Hobbs. She had many pet siblings who loved her very much. Her pet brother JJ misses her the most! She has many human siblings and friends who miss her dearly.. Kayla, Kaleb, Kameron, Kara, Grandmom, Grandpa & Aunt D. She loved to take walks around the block. We had the honor of enjoying her for 14 1/2 years on this Earth. From the day she was born on November 3, 1998 until the day she went to be with her mom, Simba, in Heaven, June 24, 2013, she was a blessing. We will never forget the time when you were 2 and took off from New Castle and we didn't find you until the next day. We will also never forget when you were 5 and you dug a hole under the fence of our new house and made your way back to our old house and we didn't find you until 9 days later. We were so glad we found you and got to enjoy you for 9 more years! Now you are up in Heaven and won't ever have to be scared of Thunderstorms and won't have to pick out the morsels of food that you want to eat and leave the others behind. Now you can take walks every day and never be in pain. We love you Fat Fur!
