

Foxy Hopkins

April 13, 2020

Our sweet girl Foxy came to us in January 2006. She was already around 9 months old. We saved her from a no-kill shelter.

Foxy's loving parents were Eric and Janice, and her human siblings were Josh and Scott. She had two loving grandparents that often kept her when the family was away for a trip. She thought a lot of her vet and groomer. She loved everyone who visited the family and made friends with all.

Her favorite toy was this orange ring that we played "which hand is it in?" Foxy enjoyed walks with her mom and sometimes got in two a day! She also loved to run around the back yard chasing the Frisbee or running the fence line with the neighbor dog.

Her favorite spot to sleep was close by wherever her mom would be, and under the bed, where she felt like it was her den for the night. Foxy didn't like storms so it was her safe place.

She was always an inquisitive dog who was feisty and happy. She loved playing and was very smart when it came to playing "guess which hand". Her color and markings were beautiful and her eyes were unique because she had permanent eyeliner around her eyes.

Foxy was there through a lot of rough times and gave her understanding looks of "I'm here for you". Her unconditional love meant the world to us! Although she wasn't much for cuddling, she would cuddle for the time you needed her, but would then stay with you close by. She loved us all and we loved her immensely! We have so many wonderful memories that we can't name them all! Foxy, we miss you so! We'll never forget your loyalty, love and companionship!
