

Holly Ann Collins

November 15, 2008 - February 25, 2022

Holly Ann Collins was born November 15, 2008 and crossed over the rainbow bridge February 25, 2022. She was a full-blooded Bichon Frise' and was a part of our family for 13 years and 3 months. She was a retirement/Christmas gift to my husband from our daughters, Cammie & Betsy. I was still working and they thought their dad needed a pet. :) Holly was a precious little ball of white fur when we got her. We named her "Holly" because it was Christmastime and it just seemed appropriate. She was a lap dog for sure until she got sick around the age of 10 1/2. She was diagnosed with Diabetes (required 2 insulin injections per day) and Cushings disease (required medication), around two and a half years prior to her death. She did pretty good (good days and bad days) for about 2 years after her diagnosis. Then, she seemed to age quite fast adding arthritis and severe patella luxation to her medical issues. She became a little old lady with a worn out body. :(

Good Memories: Holly liked getting groomed. She loved to go with us. She did not like staying home alone and did not like thunderstorms. She loved walks and rides in the car and in our golf cart. She had a sock fetish..... You had to keep your shoes on, or go barefooted, because if not, she was trying to take your socks off so she could hide them. :) She liked the snow; she would eat it. The two things that would make her bark every time was the doorbell and the sweeper. She loved people and attention. She had to meet everyone that came to the door by smelling them until they ceased to pay attention to her.

She loved playing with her cousin, Zoe, a goldendoodle, even though Zoe was 5 times her size. Holly was a very sweet girl!

We miss you Holly girl, but we know you are all healed and playing with the angels and other dogs in heaven, running and jumping and having a wonderful life. We will never forget the joy you gave us for 13 years! (((Hugs)))

In loving memory,
Your human Parents,
Ron and Becky Collins
