

Jasmine Jones

June 10, 2003 - April 18, 2021

Jasmine or "Jazzy May", as she was known to most of the people around her, was a very loving, and affectionate best friend. She was born on June 10, 2003, and passed on April 18, 2021. She will always be remembered for her gentle and loving demeanor. Jasmine had a way of knowing when you were not feeling well, or were sorrowful. She would always fly to the relief of anyone who was in emotional distress. Without any formal training, she displayed a keen sense of identifying an oncoming medical condition. Because of this, she would eventually be certified as a diabetic alert service animal for her master Tasha. Although her passing was heartbreaking, it came at a time when Jasmine was starting to show symptoms of suffering. She will always be missed, however, we are grateful that her suffering was not prolonged. She passed the same day that her master's father in-law, was laid to rest. She was very close to Monte Sr. and it comes as no surprise that she followed him into the great beyond just a few short hours later. Jasmine is survived by her hoomans Tasha and Monte II, her fur-brother "Freedom" and her feline sister "Salem". Through all of us her memory will live on.....

We will always love you Jasmine!!!!
