Jolene's favorite activities were napping with mom, getting her fur brushed, hanging out in the cat tree, and getting chin scratches and head rubs. Her least favorite thing was being moved from her favorite spot. Her favorite place to sleep was the pillow right next to mom's.

Favorite Memory - holding her little paw every night while going to sleep.

Message from mom -

I don't know what her life was like before I got her, but it took me so long to get all the matts and knots out of her fur, but during that time we built one of the most precious bonds that lasted almost 9 years. I will forever be infinitely grateful for the time I got to spend with her and I will always leave a pillow for her next to mine.
