

Kato Kinser

August 1, 2004 - June 18, 2021

Kato was born in August 2004, and came home to live with his daddy on Thanksgiving Day 2004. He left this earth and crossed the Rainbow Bridge on June 18th, 2021.

He is survived and deeply missed by his human daddy, Johnny Kinser, and his human uncle, Rex Nowlin.

Kato was a loving soul and loved everyone he met, but he was a daddy's boy. When daddy was home, he was a constant at his daddy's side.

In his younger years, and until the last year of his life, Kato loved to play catch with his basketball. He would bring the ball to you, drop it; and then run away so you could throw it, so he could catch it and bring it back to you to do all over again. Kato was protective of his home and his yard and would chase away any other dogs, cats, squirrels, birds, or any other animal that dared enter into his domain. He was always alert, and let you know when anyone was around.

He loved to cuddle with his daddy, lying beside him while sitting on the couch. At night time, Kato had to be under the covers and his side had to be touching his daddy's side before he could go to sleep.

Kato never knew he was a dog. He was always daddy's baby boy.

In his later years, Kato developed diabetes and required 2 shots a day.

Although he hated the shots, he always held still and took them like the little man he was. In the last year of his life although the diabetes robbed him of his eye sight he still remained active until the last few days.

Kato is deeply missed and will always hold a special place in my heart. He was by far the best friend I have ever had and his passing has left an emptiness that will never be filled. Rest in Heaven Daddy's Boy and wait for me by the Rainbow Bridge. I love you and I will see you again!
