Keylan's favorite toy was a stuffed yellow bone. He loved to lay his head on it and use it as a pillow. He loved to go walk, sit or run on the patio, ride on Daddy's lap on the scooter, and he loved to see the Mo Mos (cows out in the field). He did not like to be around other animals. He did not want anything to do with them. He used to chase the cat. His favorite place to sleep was in bed with us or the back of the couch.

Favorite memories of Keylan: When he used to chase the cat. Ride on the scooter with his Daddy. When we moved to Florida, he used to chase the lizards on the patio. He loved to go for walks in the parks.
