To my fur baby...you were my one and only, my ride or die, my partner in crime, my best friend, and the ultimate pain in my a**. You were in my life for almost 18 years. I tried to prepare myself for your passing, but as they say nothing will ever prepare you for a loss such as this. You died in my arms, and I wouldn't have had it any other way. It didn't really set in that you were never coming back until I came home, and you were not there waiting for me at the front door. The memories we shared will live forever in my heart.
