

Leo

January 3, 2015 - June 21, 2024

Leo ("Twinkle") was born on January 3, 2015 (mom's half birthday), and passed on June 21, 2024. He is survived by his pet parent, Nikki; human siblings, Lily and Shilo; pet siblings: Bentley, Lucy, Winston Carmichael, Pancake and the Velociraptors.

Leo's favorite toy was his pink Hello Kitty blanket. His favorite activities were naps anywhere and everywhere; cuddling with his humans. His least favorite thing were literally nothing. His favorite places to sleep were windows and fluffy surfaces.

Favorite memories: Leo came to us the day of our grandfather's passing. He stepped in to be the biggest comfort. He was always the man of the house and spent every single second giving us the absolute most love and happiness.

“ *Leo was the best boy. My best friend, my light. The most amazing companion anyone could have asked for. He got the worst start in life but still managed to have so much love for literally everything. He did so much good in a world that absolutely didn't deserve such an angel.*
