

Lexi

July 23, 2024

Lexi (:Lexi Lou") passed on July 23, 2024. She is survived by her Friends for Paws foster mom, Kellie, and foster dad, Clint; human sibling, Riley; and pet siblings: Viper, Bear, Stella, and Pistol. Other family and friends are all of my followers through Friends for Paws.

Lexi's favorite activities were barking and pestering the cats. Her least favorite things were car rides. Her favorite place to sleep was with her foster brother.

Favorite memories of Lexi: Hiking and camping. Lexi was a hospice foster dumped as a young dog with multiple health issues. With the love and support of FFP, our followers, and Pendleton Vet Clinic, Lexi lived an extra 4 years with love and experiences in life with her foster family. She will be missed.

In Lexi's memory, please look for the hard dogs, the dogs who won't have a chance, give them the last days of grace and love. Give a shelter dog a chance.
