

Maggie Davis

December 26, 2024

Maggie (Mags) Davis was born in 2015 and adopted from ARF Muncie by her mother, Emily, that same year. She is survived by her mama, grandma, and her favorite: pawpaw. She is dearly missed by her fur-sister Claire, and fur-cousins; Kodi, Josephine (JoJo), and Ollie Carver. Other family members include Shelby Carver and Henrik Lundgren. Her favorite activities were being on neighborhood watch for furry friends, and lounging with her pawpaw on the back of the couch. She loved going on walks, rides, and sought adventure. Maggie was known for her expressive yet loving personality and her ability to make everyone's day better with her snuggles. Among her least favorite things were mail delivery services, neighborhood cats, and fireworks. Her favorite things were her people. She loved those who loved her, and showed it in peculiar and unique ways. She would always tell us when it was time to go to sleep, and expected us to follow suit. Every snowfall she would bury her nose in the fresh snow and come back inside to shake it off in protest. We love and miss her so very much and hope she is there waiting for us to join her.
