

Marley Pupperts Adams

October 10, 2020 - May 11, 2026

Marley Pupperts passed away on May 11th, 2026 due to a sudden slipped disc that was on his spine causing paralysis. Marley's favorite buddy was DaShawn as he loved spending time with him, and his favorite humans were Daisy and DD. He was named after the movie "Marley and Me" because his actions were just like that dog lol.

Marley loved to play in the snow, go on car rides with the wind on his nose and tongue and sunshine on his face. He loved to walk the trussels and chase geese even in the river.

He loved to chase squirrels, rabbits, and sometimes cats. He was so incredibly fast, he could've caught them but he just liked the chase and would never bite them.

Marley had a great sense of humor and was very hyper. He made everyone laugh or smile that he met, and I laughed every single day he was here.

His favorite things to do were catch frisbees, balls, play soccer, and even basketball too.

His favorite toys were Monkey and Duck, as he had never torn them and would care for them.

Marley loved to eat with Mommy and watch Mom cook as he knew he was going to have a very good meal. Steaks, salmon, sausage, chicken, baked spaghetti, and hot dogs were his favorite. He would wait at night before bedtime for his snacky treats and milky bones, then lay on my feet before bed then go under my bed to sleep.

Marley was a fast learner and was super smart. He had a great sense of smell and hearing, as he was Mommie's protector in every way. Marley loved people and especially babies and kids and loved to play ball and frisbee with the neighborhood kids. He had a girlfriend "Mini Me" that would visit him at the window and fence almost everyday day. She still comes by but he's not here. He would look for her every day.

"For you" my Marley... I miss your kisses, I miss your paw shakes, I miss watching you run you were soooo fast. I miss you looking out the window when I leave and come back home, I miss you laying beside me when you were afraid of thunder and fireworks. I miss watching your head out the window while driving down the street. But mostly I just miss you, and your unconditional love you had for me and how excited you were when I walk through the door. You were a good boy and I will see you again. As

always, "I'll be
back Marley, I promise and I bring you snacky treats" and I know you will be
waiting for
me to return. Love you so much, you were my best friend!
