

Milo Costello

September 19, 2023

Milo ("MiMi", "my little milo") Costello was adopted on March 2007, and passed on September 19, 2023. He is survived by his pet parents, Brandy Costello and Stew Costello; human siblings, Aiden and Lyla; pet siblings: Cash, Fritz, Dora, and Percy.

Milo's favorite activities were being around his family, whatever we were doing he just wanted to be around. His least favorite things were baths. He hated them and when put into the bath he would start paddling. It was so cute. His favorite place to sleep was under the bed, in bed, or in his room.

Favorite memories: When we first met I held him while my mom shopped and when it was time to put him back he licked my chin and I begged for him and he came home with me when I was 17. First snow - he was so little he jumped in snow and completely disappeared. I loved how he would always follow me and when I would run around the house he would be doing laps with me. All his shirts - I would put him in, he would always smile and be extra happy. His first hair cut - when I went to pick him up he looked so cute and he was so excited to see me he wiggled and jumped out of the lady's arms practically and into mine. When he went camping with us he was so happy to be able to come and be included.
