

Mittens Newsom

January 3, 2020

Mittens, also known as “boobie”, passed away after a long, beautiful almost 20 years (September 2000 to January 2020) of life, surrounded by his mom and grandma who loved him very much.

Mittens would receive so many compliments on his beautiful markings, his perfect mix of black and white. Some of his favorite activities were eating, sleeping in every part of the house (mostly with his mom), and sitting on a window sill looking outside, like he was in a music video.

Mittens was so much more than a pet. As his pet family shared, “We thank him so much for picking us to be his forever home and blessing us with beautiful and unforgettable memories that will last a lifetime.”

Love and miss you, boobie!
