

Molly Carlson

September 28, 2013 - April 29, 2023

Molly ("The Wag", "Wag Dag", "Waggle") Carlson was born Sept.,28 2013, and passed on April 29, 2023. She is survived by her pet parent; Justin Erik Carlson, human family; Grandma Nancy, Grandpa Larry, Uncle Mica and Uncle Ryne and Pet cat siblings: Phoenix, Minerva and Neera.

Molly's favorite toys were her ball, Mystery Machine, squeaky fox and her Grinch. Her favorite things were playing fetch, cuddling with her dad, car rides, hiking, sunbathing and butt scratches. Her least favorite things were the brush and deep water.

My favorite memories are; playing fetch in the park with Molly, until I got tired instead of her. Climbing new mountains in Colorado, going camping and floating down the river. Cross country trips we took and the way she barked at Amish horses. She had no problem scaring away big black bears and being loved by everyone she ever met, everywhere we went. Coming home to her everyday, being alone with her whether by choice or not. Her saving my life more times than I can even count. Her beautiful soft fur and the warm wetness from her tongue as she licked my face. Those beautiful brown eyes that gave me comfort so many times when I needed it the most. When she had her very first heat on my lap driving home from Colorado the first time and when she had all of those puppies in Uncle Ryne's room. Although, my favorite memory of all is feeling her warm little body next to mine and the countless kisses she

gave me, through good days and bad, no matter rain or shine. Sometimes, it was just her and I against the world, but in the end all I ever needed, was my dog Molly. How I will always miss my little living teddy bear.

Favorite place to sleep; by her dad and any comfy pillows she could find.
