

Molly "Nubbs" Davidson

March 12, 2021

Molly "Nubbs" Davidson came to her forever family in November of 2008 and lived a life full of love and treats until March 12, 2021, when she peacefully and humanely left surrounded by her humans after a long and courageous battle.

Molly leaves behind to cherish her beautiful memory of her human parents, Kevin and Lori Davidson, fur brother, Opie and brother and sister from another species, Oscar and Olive. Molly loved car rides or just being with her humans. Molly loved naps and she loved naps in the best way. She would cuddle her humans on the couch or in bed under the covers. Really, whoever was next to her or sometimes when she was feeling good, her brother. Molly loved everyone she met and they loved her.

Molly was a gentle spirit who never hurt a soul. Molly was able to live most of her years in the country where she ran in the woods and rolled in the grass until she was ready for yet another nap. There is a place in the hearts of those who knew her that will forever be empty with the loss of Molly. To honor the memory of Molly, hug your pet tight, she loved cuddles.
