

## Molly Shehu

January 1, 2026

RIP Sweet Molly

Molly passed 1/1/26 after 2 years of being completely paralyzed in her rear legs. She was a feisty little spitfire and still ruled over her 3 pug siblings and 1 kitty sibling. She let them know daily that she was still in charge. She loved her human granddaughter Violet and was very attached to Violet's daddy Chris. Molly was her parents "soul" dog to the point that they could tell which bark meant what!

She is fiercely missed and her parents are heartbroken. But we (her parents) also know that she is running freely with all 4 legs and no pain. Run, Molly, run!
