

Nova Seal

March 27, 2026

Nova ("Queen", "NovaNova") was adopted December 31, 2021; and passed on March 27, 2026. She is survived by her pet parent, Dawn Seal; siblings human - Jaelynn (sister); Jennifer (sister); Curtis (brother in law); sibling pets - Mercy (dog sister); Jack (cat nephew); Stevie (cat niece).

Nova didn't like playing with toys. Her favorite activity was sitting in the middle of the living room floor watching everyone, seeming to rule the world. Her least favorite thing was getting a bath and being brushed. Her favorite place to sleep was right up against mom's back.

Favorite memories: She would follow her human mom around the house. When her human mom would go out to the garage to do laundry she would meow and if her human mom didn't come back in quick enough she would jump up and hang on to the bottom panes of the glass windows for as long as she could, watching her human mom in the garage. Another favorite memory is the day she was adopted.

During the day she would nap on her human mom's chest or on the arm of the chair that her mom was sitting in.
