

## Oliver Marsh

May 19, 2024

Oliver (“Mister Ver”) was a handsome, playful, and very kindhearted little man that made everyone laugh on a regular basis. He was born in June 2009 and in March of 2011 he found his new dad and was adopted from the Humane Society of Madison County. His favorite antics were making very long in depth “conversations” with everyone in the room and silly surprised noises. He also thoroughly enjoyed sitting with his dear Scarlett (niece to Andrew and Nicholas) while playing games and chasing his favorite toy “Mr. Squirrel”. He dearly loved his parents Andy and Nick, arriving into their life at the beginning of their relationship and sharing many wonderful memories together, including daily cuddles by the fire reading a book or movie nights. He was an excellent cuddler.

Oliver “Ver” was always greeting family at the door on Christmas and special occasions and was known to chat up a storm to all who listened. He also loved greeting his human friend Joe that came to visit on occasion for extra cuddles. He thoroughly loved napping in a big comfy bed on lazy days (sometimes snoring after a long hard day chasing and playing with Scooter). Oliver loved to eat all kinds of flavors of food and was a funny man who liked sharing his food bowl with his sister.

Oliver crossed the rainbow bridge while in the lap of his parents on May 19,

2024, to meet his sister Scooter once again- chasing butterflies and having all the delicious food he would ever want. He is also survived by Christina and her daughter Scarlett and family. He is also survived by by Christina and her daughter Scarlett, his loving grandma, Maria, who spoiled him with lots of time babysitting, and family He will be dearly missed by all the family and friends that felt his love for almost 15 years.

“ Oi Ver You were a sweet cat ! He was funny because he would look at you like " what are you doing at my house and did you bring me any gifts or food ? " lol Then would just wander off and lay down somewhere. I would watch Ver and Scooter when Nick and Andy went on vacation and Ver would always be at the back door crying as if to say where are my parents, when are they coming back ! lol But I would go in and feed him and Scooter and sit and talk to them for a little bit seemed to help calm him down He was like well they are on vacation so I guess you will have to do . He brought alot of joy to everyone and will be sadly missed. The good memories will help get you through and know that he had a wonderful , spoiled life

“ Oh Oliver Scarlett and I will miss you so much.  
You always hopped on my lap anytime I came over to your house.  
Give scooter and papa loves for me
