

Parker Stroud

August 11, 2024 - April 21, 2026

Parker was born on August 11th, 2024 in Miami County, Indiana. He was one of three, of a set of triplets (Phoenix, Parker, & Penelope). He unexpectedly passed away at home on Tuesday evening April 21st, 2026.

He is survived by sibling; Phoenix, Father; Frosty, Mother; Jordache, Friends: Axial, Chance, Dixie, & Kaia. Also surviving are human parents; mom (Kortney) & dad (Adam.) He was preceded in passing by; Jack, Jhonnie, Jill, Penelope, Paisley, & Penny.

Parker was thoroughly loved and is very missed by all. He most resembled his big sis, Jill. He was a shy fellow but had a big heart. He was just getting his start into the show ring & his human mom misses taking him to shows tremendously. He was a mama's boy (goat mom) and would not leave his mom's side, she is taking the loss extremely hard and depressed without him. His favorite thing to do was just follow his mom around and run with the other goats. As long as he was close to his mom, it didn't matter where he was.

Parker will be tremendously missed by all. It is not the same without his plump, fluffy, kind, huggable self not in the barn running around with the other goats.

Jill, make sure you are looking after your little brother up there. I am glad you

two are finally together again. That is the only thing bringing me peace over this unexpected passing.

Love & miss you my sweet Parker.
