

Piper King

October 31, 2010 - February 4, 2022

Piper ("Pipe", "Pipee", "Toots", "Tootsie Roll", "Best Girl Ever", "Pretty") King was born on October 31, 2010, and passed on February 4, 2022. She is survived by her pet parents, Sean & Lori King; human siblings: Brothers, Braydon & Mason, and bonus sister Ica; and pet siblings: Maximus (Max) & Coco Bean. All of our family and friends loved Piper. Anyone that met her, fell in love with her.

When Piper was young, she loves stuffed toys. As she got older she just wanted to be with her mom and lay in the sun. Her favorite activities were being with her family, laying in the sun, going for walks. She would get upset when Max got too excited and played for too long. She would tell you when she was done hearing him. :) She had beds in several rooms of our house as well as the garage when she was out there with dad.

Favorite memories: Piper was the sweetest dog we have ever had. She was very 'talkative' and knew her routine. She told you when it was time to eat, to go to bed, and time for Max to calm down. When she was extra happy, she would roll around on her back and make the funniest sound. You could literally ask Piper questions and she would answer us with either barking or her own interpretation of talking with many sounds. Piper loved for people to see her and recognize her beauty. From the first day we got her as a puppy, she has always 'sat pretty' for everyone to see. She will be greatly missed by so many.

Her favorite person was her mom and towards the end when she was having trouble with walking, she was by her mom's side 24/7. She also loved being in the garage with her dad and he loved her dearly. This was a great loss for us, but we know she is running, playing and telling everyone about us at the Rainbow Bridge.
