

Reggie Sculthorp

May 5, 2005 - September 24, 2023

Reggie ("Smelly man") Sculthorp was born on May 5, 2005, and passed on September 24, 2023. He is survived by his pet parent, Christi Sculthorp. He was preceded in death by his kitty sister, Hope.

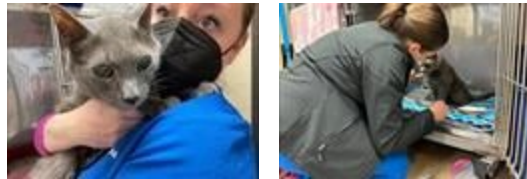

Reggie's favorite toys were anything with catnip or furry mice. His favorite activities were lying in the sun, sitting in my lap, or playing with toys that bounced. His least favorite thing was my bedroom door being closed at night so I could sleep.

Favorite memory: Us having the last year to become very close. He had been diagnosed with coronary heart disease in September 2022. Life expectancy after diagnosis is 6 months. He lived almost a year after diagnosis. I was so fortunate we were able to get to know each other.

Tribute Wall

AF

“ I had the great honor of taking care of Reggie for the past year. When he first came to us, he was diagnosed with severe heart disease. This is a hard diagnosis for any cat, let alone for a 17 year old cat. Over the last year, Christi has done an amazing job of taking care of Reggie. It takes close monitoring and severe dedication to take care of an elderly pet with heart disease. Christi was able to do all those things and more. She spoiled Reggie just like he deserved. Having multiple water bowls throughout the house just so he could drink as much as he wanted which is very important since he was on lasix. Reggie passed away peacefully at home in one of his favorite napping places. He was right where he wanted to be <3 I will miss Reggie very much and I wish the very best for Christi. My hope is that she is able to cherish the happy memories that she had with him and know he is in a place that he will never have to feel pain ever again. Reggie's memory will live on in every sweet grey cat that I come across.
