“ Her nick name for most is Sapphie but her full name is Sapphire. She loved to meet me when I would come visit and sit on the couch, she would put her paw up and want a high five back!!!! She loved to cuddle and loved her head rubbed so much, not her ears though. She would also beg for chicken when I had it just like a dog. I will miss you so much sorry you had to go so soon but please go visit uncle randy and keep him company. I love you! nana
