

## Scooter Wann

March 23, 2024

Scooter was born in August of 2004 and was found in Frankton by my sister Christina, who was a little girl at the time. Scooter would eventually live with Nick's (me) grandfather Maurie for 11 more wonderful years as his friend and companion. I spent a year in college in 2008-2009 living with my grandfather and

Scooter would spend many nights swiping a donut or two or comically showing off during a night of Jeopardy followed by Antiques Roadshow.

She was a gorgeous, sweet, and very sassy lady that would eventually come back to live with me and be with family in our home when my grandfather passed away in 2015. Affectionately known as "mamaw Scooter", she brought a soul level comfort to me and soon my niece. She loved her "girls"- my niece Scarlett and my sister Christina. She was an extremely empathic cat that was known to wipe the

tears off the eyes with her paw on sad days, run around and be extra silly on fun days, and on lazy summer days sunbathe and chill with her younger then adopted brother Oliver. She was extremely close to Oliver and bonded quickly upon meeting him in 2015.

She would spend the rest of her almost 20 years bringing joy to all the family. She even became known as the "classroom aide" when my niece Scarlett was homeschooled for preschool. She was often sitting watching attentively during

class and loved to hang out during slumber parties. She showed other unique ways of showing affection by always wanting to lay on a chest and lightly tap her paw on your cheek.

She will be remembered by her beloved parents, Andy and Nick along with the rest of the family will always treasure her as the sweet, sassy old lady chasing butterflies and waiting to see her brother (and papaw) again on the rainbow bridge journey upon her passing on March 23, 2024.
