

Sissy Owen

July 7, 2019

Sissy Owen, DOB unknown, estimated 11 years of age, of Marion, Indiana, passed away on July 7, 2019, after developing other unexpected health issues.

Sissy was adopted by Amy Owen on January 10, 2018 from the Marion Grant County Humane Society after she was found wandering and in poor condition. Sissy had cancer at her time of adoption and had surgery to remove the mast cell tumor and lead a very happy, healthy 18 months with her new mommy and new fur siblings, Sassy, Suzie, Felix, Gabe (who is lost without her) and Lexi.

Sissy went by several names, Sissy, “Sissy Doodle Noodle” and “Big Booty Judy” (if you met her you would know how she got that nick name). Sissy loved any toy and looked forward each month to her monthly bark box filled with treats and toys by mail. Sissy’s favorite activities were chasing chickens, hunting mice, scratching her back on the bushes in the backyard, and laying in the sun on the back porch and her cot in her Mommy’s bedroom and with some assistance, being helped up into her Mommy’s bed for a snuggle session, belly rub and back scratching. Sissy loved food and would have eaten a Thanksgiving dinner and all the guests plates and finished it off with dessert and dog treat if she would have been offered to do so! Her least favorite activity was taking her thyroid medication even disguised in cheese!

We got to have Sissy for 2 Easter's, 1 Christmas, 1 Thanksgiving and 18 very short months of our lives but she touched our lives every day of that 18 months, and our hearts and souls forever. Sissy was so beautiful and her ears were as soft as satin. We often joked that her spots grew bigger every day we had her! I hope, if it is possible Sissy, that you knew how much you were loved and still are loved and how losing you will be something I never "get over". I pray we will meet again, rest in sweet peace, my beautiful Sissy girl!
