

Teddy Bear Edgar

February 25, 2023

“Teddy Bear Edgar (“Freddy”, “Tedward”, “Tedgar”, “Michael”) was born on October 20th, 2006 and passed on February 25th, 2023. His family included his mom, Cindy Edgar, and his two human siblings: Ashley Edgar and Courtney Edgar. He had a feline little sister named Paris Rose Edgar who was waiting for him at the rainbow bridge.

Teddy’s favorite toy was his green stuffed armadillo named Mr. Dillo, which was about the same size as him. He also enjoyed rope toys and empty water bottles in his younger days. He really liked playing fetch, running figure 8s in the yard, and sitting outside with his family. His favorite place to sleep was his mom’s bed. He would do anything for some pepperoni. Teddy had a bad habit of running away as a pup, but as he aged he wasn’t able to get too far before getting caught. His least favorite things were the garbage man and being “shnooked” while being moomed at.

Cindy’s favorite memory of Teddy was when he dug into the foundation of a brand new home causing it to have to be repaired with tar. He clearly did not learn his lesson because he was covered in tar shortly after the repair.

Ashley’s favorite memory of Teddy is when he barked at a pink paper gift bag that had been blown into the middle of the street until it was brought inside to him. He played with it like he was a puppy again for hours. She also has a

fond memory of almost walking out onto a frozen lake to try to save his life.

Courtney's favorite memory of him was when he ran away as a puppy causing a neighborhood wide search that ended with him being carried home in a giant green fishing net. So embarrassing!

Regardless of Teddy's quirks and sometimes naughty behavior, he was a good and sweet boy who always loved spending time with his family. The home already feels empty without him. Teddy will be forever loved and missed."

“ I'm thankful I got to spend some time with Taz, as Uncle Bill calls him. Always on his best behavior at our house. Will miss that sweet face. ❤️

“ Oh, the many memories of sweet, rambunctious "Tedders." I still remember the day, like it was yesterday! It was at the beginning of his journey on this Earth. Mommy was being her usual thoughtful self. She spent countless hours researching, in hopes of finding it. Finally, it arrived! Teddy watched out the window, with his perfect little bald bum, displaying his excitement by sporting his almost motorized-like, long, skinny, close to hairless, wagging tail. To add to his excitement, knowing that he was about to receive the most loving gift of all time, was his tiny little pink tongue.... panting as fast as Hannibal Lecter, at the site of his next victim! That very tongue that would, one day, be permanently displayed on the outside of his TOOTHLESS mouth! The "Tedsters" could not wait to get his present, yet, there it was! This was truly the gift that his Mommy so generously gave... to remind him of how loved he was and how they wanted him to stay contained within their sight!. The very gift that had changed his life forever, as he became the tiniest, balding, ball of excitement that wore a seventeen foot leash that frantically chased behind him, as he ran through the house. Truly a gift that "keeps on giving!" Perhaps the very reason Teddy eventually only had 7 hairs on his entire body! His Mommy graced him with the protection set for 600 lb. CATTLE! Yes, the memory of our sweet, silly, loving "Teddy Bear," as he finally received that special gift of love.... THE ZAPPER!!!!
Rest in peace, Sweet Boy. Aunt Julie has always adored you!!! I love you!
