

Toby Blanton

February 7, 2008 - February 3, 2025

Monday, February 3, 2025, just a few days shy of my precious Toby's 17th birthday I had to say my hardest goodbye. He was at home on my lap with my arms around him covered with his favorite soft blanket. I promised him I would never leave him. His fur brother Eli never left his side. His Aunt Carla and Uncle Danny were here. Paco quietly sat in his cage.

We are thankful for all the love and support. I didn't want him to go but I know he couldn't stay. I have struggled to write this but he deserves to be remembered and honored. He loved to feel the warm sunshine and cuddle on my lap covered with his blanket. I have so many precious memories. I wish we could have had more time. Toby is my hero. He kept going no matter the obstacle. He loved unconditionally and took a part of me with him. My world was a better place with Toby. I will love and miss him forever. Toby is survived by me, his Mama, his fur brother Eli, and his feathered sibling Paco. I am blessed to be his Mama and cherish my memories. I love you Toby and will miss you until we are together again.

Toby was born February 7, 2008, and crossed the rainbow bridge on February 3, 2025.
