

Yadi Jensen

March 6, 2025

With heavy hearts, we say goodbye to our beloved beagle, Yadi, who passed away on March 6, 2025, after bravely battling a cancerous tumor. He was 12 years old and left a lasting paw print on our lives.

Yadi was a true beagle through and through—rambunctious, mischievous, and always ready for an adventure. He had a knack for turning an open door into an impromptu sprint through the neighborhood, keeping us on our toes with his unplanned “walks” (or rather, chases). A master food thief, he never missed an opportunity to sneak off with an extra treat, and he made sure everyone knew of his presence with his signature beagle howl, especially when any wildlife dared to cross into his backyard.

Though his spirit was wild, his heart was pure love, and his smile could brighten the saddest days. He brought endless joy, laughter, and companionship to his family—his human parents, Brent and Amanda, and his human sisters, Jasper and Jacey. He is deeply missed by his sisters, Zoey and Luna the bunny, and now joins his brothers, Ranger and Ziggy, across the rainbow bridge.

Yadi may no longer be by our side, but he will always be in our hearts. Run free, sweet boy.
