

## Yoda Hughes

July 8, 2006 - December 29, 2017

### Yoda Edition

Hi. My name is Yoda. Yoda Hughes. I am a Himalayan Siamese kitty. I was born on July 8, 2016, at my great grandmas house. I used to be a feral kitty until my mommy and daddy caught me and brought me home on August 5, 2016. I was very sick when they brought me home, but my mommy nursed me until I was all better! In my home there are 6 total; my mommy (Bridgett), my daddy (Matthew), my cat sister (Hoot), my doggy sister (Iris), and my doggy brothers (Poseidon, Riley, and Zeus). I really love my family! I love to play with my sister Iris! I really love snuggling with my mommy! I am a lap cat for sure! When mommy is at work I love cuddling up to my doggy brother Riley! I had a great life! Until the evening of December 29, 2017, when I started seizing and wouldn't stop. I had 100 seizures in less than an hour.. So my mommy and daddy made the hard decision to lay me to rest, where I am in heaven with my great grandma who passed away in March 2017. I know I was loved very much by all my family! I know they will miss me, but I am always in their heart! And I will wait for them in heaven! I love you mom and dad!
