

Yoda Stevens

May 3, 2004 - June 1, 2021

Yoda ("Yodie Odie") Stevens was born on May 3, 2004. He was adopted by his family on January 27, 2006, and passed on June 1, 2021, at the age of 17. Yoda is survived by his mommy, Alisha Stevens. Waiting at the Rainbow Bridge, were his daddy - Tim Stevens, Granny and Grandpa - Joyce and Duane Miller; and Grandpa - Richard Shaw. Yoda's favorite toys were his stuffed "babies" and squeaky ball. He loved to walk the fence line making sure his yard was safe from intruders (birds, squirrels, etc.) and being wherever his mommy was. He was her four-legged shadow. Yoda did not like to go to the vet or have his feet touched. His favorite place to sleep was his side of the bed beside mommy. On the day he was adopted from the shelter the staff had him out front in the lobby with a sign that said "Hi, my name is Yoda and I'll be your greeter today." That sums up his personality to a tee, he didn't know a stranger. He loved belly rubs and back scratches from anyone willing to do so but he especially loved kids, always gentle.

While he did love everyone he was most definitely a mama's boy. His passing has left a hole in her heart but comforted some, knowing he is not suffering and will be waiting to see her again.
